

Full escrow but with substantial savings? With the software escrow of **EscrowDirect.eu** this is now possible. **EscrowDirect.eu** is a reliable, self-service escrow with the competitive price of only **€ 950 per year**.

You can put EscrowDirect.eu's escrow arrangements together by yourself online. Firstly you enter the data of both you and your customer into our website - we will then check this information and within 24 hours you will receive a PDF copy of the contract.

This contract is signed by you, your customer and **EscrowDirect.eu**. The contract is only signed by **EscrowDirect.eu** after you send it back along with the software. This can be by mail, FTP, e-mail or transfer. We acknowledge receipt and escrow begins.

How does escrow work? The contract contains all the conditions and agreements and is signed by everyone. The deposit contains all the materials and we carry out a test to verify the contents.

Escrow from **EscrowDirect.eu** is an all-inclusive service. Many of our competitors have even more expensive basic agreements with even less service. We can offer escrow at a very competitive rate because we keep costs low - you do some of the work and therefore pay less.

What do you get? Escrow Contract: In technical terms, the three-party escrow agreement. **Deposit:** Digital delivery, once a year. We provide packaging and storage in our vault. We accept CDs, DVDs, USB sticks and hard drives. **Test:** All materials are tested before being accepted. Only then do they go into the vault - never before. **Escrow Certificate:** Upon receipt of the materials and the completion of the test you and your customer will receive a certificate. This is proof that the escrow arrangement is complete. **Reminder:** Four times a year we will ask for a new version. Thus, your customers always have a current version.

With **EscrowDirect.eu** you can opt for extras. You can deposit software several times or have your goods tested by our people. You can choose these services at extra cost, if you wish. This keeps it simple and you know exactly what you are paying.
